

## LIFE THROUGH THE LENS

### HOW IMPORTANT ARE DOOR HANDLES?

You pull the door handle of your car, what is on your mind? “I am going to...” “Will I get there on time?” “This is a powerful piece of automobile, but I am in control”. You are until something goes wrong.

You turn your front door handle. What are you expecting – if anything; or is it just a mechanical action; done so often you don’t even think about it.

How important are door handles?

Those handles open more than doors. They open all manner of possibilities; some good; some bad and some.....well who knows.

I believe at the start of every day; every new situation; the God of the Bible is saying “Here’s a special door I planned just for you. If you let me, I would love to help you explore and understand what you find: help you with the situations I have put there that you will grow in confidence, understanding, loving: and so better enjoy, use, share all that you find there and become a fuller person”.

Next time you put your hand on the car door spare a thought about inviting God to be a passenger. Turning the front door key, consider those who maybe don’t even have a front door and thank Him that you do.

Check out Jesus and doors in the Bible. John chapter twenty; verses nineteen to twenty-eight. I pray the handles you turn this week will make your life fuller and enrich those around you.
