

## **“LIFE THROUGH THE LENS”**

### **GLOW TOGETHER**

One flower on its own can be easily missed. It might be just as beautiful as any other, but when joined by others; it, and the group, become more noticeable; make more of an impression: together they create more colour; bring more joy.

Jesus said, “Where two or three of my followers are together, I am there also” and He brings an extra element; an extra dimension that comes only when He is involved. Check out Matthew chapter 18 verse 20

When a group of people, include Jesus in their endeavours; others around will also experience something special. An uplifting; a joy; peace; a togetherness; which benefits all: Even those who may not be involved.

It’s interesting that God tells us through His word in the Bible, that He made two of every living creature. He looked at what He had made and said, “That is good! I’m very happy with it!

Maybe this is the way the world is meant to work: Not on our own; each pulling our own way; wanting only what “I” want for “Myself”.

Working together we can bring joy, beauty, fragrance, a splash of colour to the lives we touch, our neighbourhood, our town.

Do you ever stand back, look at those around you; and like God, smile and say, “Hey! that is good!”?

Take some time; stand back; look around; smile (with your eyes) and be amazed.

Look forward to a “Smiley week”.

Kevin Schrapel.
