

“LIFE THROUGH THE LENS”

2020 = PRIVILEGE AND OPTIONS

Have you ever sat at an intersection waiting for the lights to change and instead of getting impatient thought, “I am in a place of privilege! I have a choice here. I can turn left or right or continue straight ahead”. To quote a line from the TV series, Designated Survivor; “Any time we have options we, are in a position of privilege.”

Most of us are fortunate to live in a society where we do have options. Certainly, we don’t always have the options we want; but we do have options; let’s not fritter them away.

Some people feel the God of the Bible as a grumpy, bad-tempered control freak. This is far from the truth. God tells us at the start of His story, “I will give men and women a free will. They can choose to let me be a friend or ignore me” He also gave some ground rules for living, known as “The Ten Commandments”. Later Jesus said, “Love God above everything and love your neighbour as yourself.”

A parent who loves their child might say as they hand over the car keys, “Mind how you drive!” Here are the privileges and options.

As God hands to each of us the days for 2020, He says, “Mind how you go! There will be options and privileges. If you are not sure about the decisions, talk to me like you would any other mate you respect. I want to help you decide on the best options.”

God bless,
Kevin.
