

## “LIFE THROUGH THE LENS”

### **A CLEAN WINDSCREEN**

You're driving along; you decide your car's windshield is dirty. You press a button or lever; suddenly water squirts on the windshield; things start going back and forth before your eyes. You didn't think about it. You trusted that when the maker's manual tells you to do "this" then "that" will happen. You don't actually understand how it all works; where the wires go; what type of pump sprays the water. No further effort by you and your windshield is cleaned; it's safe to keep driving.

Life can be like that. Sometimes there is so much muck in our lives it becomes difficult to go forward with confidence; can't clearly see where we are going and we become fearful of what lies ahead.

But the One who I believe created us has supplied the manual for driving through life. (The Bible) Why do we so often not trust what He has put into it? It's like pushing the wiper lever. Do it trusting it works! You may not understand how His love works. Just believe it does.

The main instructions are repeated over and over in different ways. What they say are, "Trust that my Son Jesus died on a cross so you can have the muck cleaned from your life and see your way forward." Then even better, He says "I have mapped out the road for you. Travel it, keeping your mind open and expect to find peace and joy. No charge." Hint: download a Bible app and check out Romans chapter 15 verse thirteen.

Cheers,  
Kevin
