

“LIFE THROUGH THE LENS”

GOD CAN ADD BUBBLES

There are two ways you can fill a glass with water. Slowly; which is pretty boring. Or, turn the tap on “full bore” and see what happens. The glass becomes filled, not only with water. The water drags air which makes bubbles of all shapes and sizes bouncing around. We all know that air brings life and invigorates.

Some believe living with God as part of life would be boring and restrictive. Even as a follower of Jesus, things can sometimes feel a bit “Ho-hum”

Maybe that is because we only allow God/Jesus to influence our lives a drop at a time. We don’t let him impact our lives “full bore”.

Try talking to Jesus about him rushing in and filling your life. Bringing not only his love and forgiveness but also “bubbles” of excitement. The joy of friends and family. A new way of dealing with old problems. Developing “new friends” and renewing friendships that have gone stale. Even bringing some “bubbles” into someone else's life. Jesus said, “I have come that you may have life, and have it to the full. Even to overflowing with love and joy.

Also, when I turned the tap on full, dregs in the bottom of the glass were washed out. Don’t be surprised if you let the full force, the full love, of God into your life some unwanted stuff in your life will be washed out and replaced with “bubbles of joy”. It could be worth a try. Talk to Him about it.

Cheers,

Kevin Schrapel
